EXPERIENCE

Canadian Pacific Kansas City (CPKC)

Mississauga, ON

Innovation Catalyst, Innovation Program

September 2025 – March 2026

- Co-owned the problem scope and product requirements for company's first AI native chatbot, from flows and wireframes to Figma design system and engineering handoff.
- Designed and tracked adoption of a cross departmental community of practice to embed human centered thinking, engaging 5% of the Information Services department through leadership-nominated cohorts by Q1 2026.

Summer Intern, Innovation Program

July 2025 - September 2025

- Co-built a problem structuring thinking framework adopted at the CIO level and later used as the foundation for enterprise wide innovation practice.
- Partnered with Business Transformation and OCM teams to design and co-facilitate workshops, translating complex business challenges into quantifiable outcomes.

DesignWith Lab

Toronto, ON

Design Research Intern

July 2024 - November 2024

- Conducted market and accessibility research to guide a web platform redesign, improving accessibility and enabling 90% material reuse in a zero-waste collection.

Samdisha Bagga Official

New Delhi, India

Experience Design Intern

April 2024 - June 2024

- Streamlined order fulfilment processes and standardized creation workflows for digital content, reducing delivery timelines by 20% and increasing engagement across platforms.

EXTRACURRICULARS

OCAD University

Toronto, ON

Exhibition Director, Industrial Design GradEx Committee

January 2026 - May 2026

- Managed end-to-end execution of a 5-day public exhibition reaching 6,000+ visitors, coordinating logistics, programming, and communications across a 6-person committee.
- Built and shipped the official exhibition website in under 2 weeks built in vanilla HTML, driving 500+ page views with Instagram as top referral channel (+65% mobile traffic).

Cadillac Fairview X OCAD

Toronto, ON

Project Lead

September 2024 - January 2025

- Led branding and promotional strategy for Gather, a retail engagement platform concept across 255 locations, resulting in a concept shortlisted for implementation consideration.
