## EDUCATION

### OCAD University

Toronto, ON

Honours Bachelor of Design with Distinction, Industrial Design: Minor in Science

April 2026

*Related Coursework:* Human Centered Research, Conceptual Foresight and Strategy, Service Design, Design Management, Statistics

## EXPERIENCE

### Canadian Pacific Kansas City (CPKC)

Mississauga, ON

*Researcher, Innovation Program*

September 2025 - March 2026

- Conducted interviews and facilitated workshops across all five sales and marketing lines of business, within a discovery program covering **20+** Account and Market Managers and six ranking sessions with VPs, Directors and Managing Directors.
- Contributed to a prioritization that scored six AI opportunities against business value and technical feasibility and presented the shortlist to sales and marketing teams across four business lines. Top-ranked case shipped as a working demo, **CPKC's first AI-native internal product**.
- Ran opportunity-finding workshops with enterprise clients including a global ocean carrier, a national grocery retailer and two CPG multinationals, alongside the internal customer experience team owning those accounts.
- Designed and tracked adoption of a cross departmental community of practice to embed human centred thinking, engaging **105+ members** of the Information Services department through leadership-nominated cohorts by Q1 2026.

*Summer Intern, Innovation Program*

July 2025 - September 2025

- Co-developed a problem-structuring toolset by adapting an existing design methodology to a freight railway serving clients across multiple lines of business. Adopted at CIO level and used as the foundation for enterprise-wide innovation practice.
- Ran driver-experience journey mapping for Schneider, a major trucking partner, producing **8 action plans** presented to senior leadership.
- Built and maintained the team's knowledge base, including historical documentation and partnership initiatives.

### OCAD University

Toronto, ON

*Exhibition Director, GradEx Committee*

January 2026 - May 2026

- Directed FOR/M, OCAD's 111th graduating Industrial Design exhibition: five days, 50 designers, three curatorial zones and a 15-session speaker series, delivered end-to-end across a six-person committee.
- Secured external sponsorships and negotiated partner agreements, serving as primary point of contact for sponsors, venue and institutional stakeholders.
- Drove audience turnout of 6,000+ visitors over five days, supported by a campaign that generated 205K+ Instagram impressions.

### DesignWith Lab

Toronto, ON

*Design Research Intern*

July 2024 - November 2024

- Conducted market and accessibility research to guide a web platform redesign, improving accessibility and enabling 90% material reuse in a zero-waste collection.

## SELECTED PROJECTS

### Cadillac Fairview X OCAD

Toronto, ON

*Service Design Lead*

September 2024 - January 2025

- Led branding and promotional strategy for Gather, a retail engagement platform concept across 255 locations, resulting in a concept shortlisted for implementation consideration.

### Simple Brain

July 2026

- Built and shipped an AI market validation tool that runs structured desk research against a stated business idea, with search grounded in Canadian market sources.

---
